

*Changing the World Without Changing Course*

**For Immediate Release**

## **YachtAidGlobal announces partnership with Tahiti Private Expeditions**

**(San Diego, Ca, November 23,2022)**- YachtAid Global (YAG) is proud to announce the official partnership with Tahiti Private Expeditions (TPE) in the South Pacific and beyond as we continue to grow our ocean and marine life conservation efforts across our global Operation Swimway conservation program.

In an effort to give back to our oceans, YachtAid Global and Tahiti Private Expeditions now provide an immersive and educational experience for both yacht owners, and yacht charter clients alike focusing on the conservation of critical migration corridors for sharks, manta rays, sea turtles, and billfish along routes. These corridors play a critical role in the migration of these species as they seek to reach new feeding grounds and protected pupping areas.

Operation Swimway provides much-needed support to the scientific community and affords all participants the pride of knowing they contributed to the preservation efforts of the seas they enjoy and the animals that live within. Participating yachts, guests and crew, will have the opportunity to work side by side with distinguished members of the scientific community, assist with dives, operate underwater equipment, tag, measure and learn hands-on conservation methods and science.

**About Tahiti Private Expeditions:** Working with superyacht clients in French Polynesia and beyond over the past 15 years planning and filming over 350 Superyacht expeditions in 35 different worldwide destinations, Tahiti Private Expeditions (TPE) creates a “trip of a lifetime, to remember for a lifetime”. The team of professional guides, including marine naturalists, dive instructors and professional underwater photographers at TPE provide bespoke expedition and dive leadership for participating yachts while capturing all the beauty of the marine ecosystem in award-winning fashion.

**About YachtAid Global:** YachtAid Global (YAG) is a registered 501(c)(3), operating at the highest levels of international non-profit work across coastal communities worldwide. The organization’s humanitarian aid, conservation programs, and disaster relief responses are successfully implemented through a vetted network of NGOs, agents, government agencies, brokers, and charities, in combination with YachtAid Global’s provision of consultation, leadership, and logistics management, at local and global levels, for superyachts interested in participating in the execution of the altruistic activities. YachtAid Global has engaged 300+ yachts across 250+ projects over 25+ countries in timely, agenda-free projects that saved lives, built stronger communities, and enabled YachtAid Global’s partner donors, businesses and yachts to contribute to the world around them and leave lasting philanthropic footprints across global coastal communities.

**About Operation Swimway:** Operation Swimway is a global conservation program featuring investments into the equipment and science of ocean conservation, while enabling interested yacht owners, guests, and crew to work closely with distinguished members of the scientific community to accelerate the conservation of pelagic species.
